Making a Saving

Vouchers and Gift Cards

You can purchase vouchers and gift cards from the mylifestyle website at a discounted rate to save money. Just choose how much you want to spend and the discount automatically gets applied.

For example if you receive a 10% discount, you can purchase a £100 gift card for £90 – you will never pay full price!

Some gift cards are reloadable so you can top them up with credit when you run out - ideal for regular savings at the supermarket!

SMS Vouchers

Get instant discount codes to use on the move thanks to mylifestyle SMS vouchers.

Just search for SMS Vouchers on the website and select the one you want. Choose how much you want to spend - you will then see the discounted price you actually need to pay.

Fill out your payment details and phone number, and within seconds you will be texted the exclusive discount code.

eGift Cards

Discounted eGift cards work in the same way as normal gift card or vouchers, only they are instant!

Simply search for your chosen retailer and select the eGift card option. Choose how much you want to spend – you will then see the discounted price you actually need to pay.

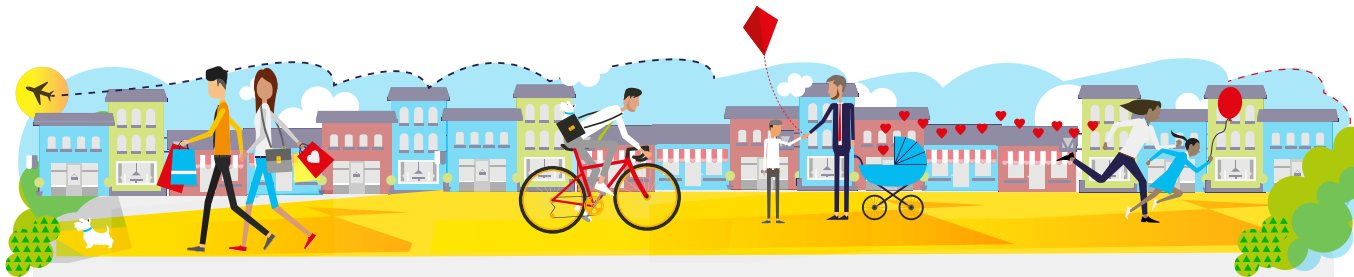

Once the payment has been processed, the eGift card will be sent to your email address ready for you to use instantly.

Online Codes - Instant Discounts

Make on the spot savings at a range of retailers with exclusive online discount codes.

Depending on the retailer, you will either be directed to their website where the discount has already been applied, or asked to enter the code at checkout (online or over the phone).

Either way, you can make a great saving whenever it suits you!
